Good morning! In the last line from the weekly, who is the "Oak Ridge Leadership team?"

I'll be providing some feedback on the letters shortly.

R4 Superfund and Emergency Management Weekly Report November 19, 2021

Oak Ridge Reservation (DOE): The OLEM AA briefing scheduled for November 15th regarding the rad discharge limits for the EMDF was postponed. R4, OSRTI, FFRRO and FFEO continue to discuss development of risk-based instream water quality values for radionuclides using a site[1]specific fish consumption rate and CERCLA exposure duration verse use of CWA guidance defaults and exposure durations. Additionally, discussions continue regarding the R4 decision to allow DOE to provide additional information to the public via a series of fact sheets with a public meeting and formal public comment vs a revised Proposed Plan for the EMDF. On November 30th, TDEC officials plan to visit the TN congressional delegation, DOE's "EM-1" and Deputy Administrator McCabe (three separate meetings) in Washington D.C. to discuss the EMDF. On December 6th, the Oak Ridge Leadership team is scheduled to meet.
